WORK EXPERIENCE

Program Manager Intern • Forest Brook Church
May - August 2019, Ajax ON

- Developed a specialized program to fulfill the church's mission of establishing relationships with new families by targeting youth and children in the community

- Led to an average attendance of 120 children for monthly events, which increased the retention rate by 50% with new families by managing 55 individuals

- Planned and launched a four month social media marketing campaign, which tripled the weekly student program registrations, and collected 3000+ views for the Youtube and Instagram promotional videos

Projects

Weather App - iOS, OpenWeather API

- Developed a weather App using Swift, Sketch and InVision to display temperature, humidity and wind chill in cities worldwide

- Integrated cocoapods with the Alamofire framework, using an OpenWeather API by fetching data via HTTP requests, and worked with Core Location to obtain the GPS data

Hotdog Not Hotdog! - iOS, CoreML

- Developed an iOS app, inspired by the famous sitcom "Sillicon Valley" that uses machine learning to analyze a picture taken by a user to classify an object

- Integrated Apple's InceptionV3 machine learning model for image recognition, and used the Vision framework in Xcode to process images more easily

SKILLS

Development

Swift, Java, Javascipt, HTML5, CSS3

Design

UI/UX and product design, product strategy, prototyping, wireframes and mockups

Tools: Sketch, Figma, InVision

EDUCATION

Seneca College
Computer Programming & Analysis
Expected April 2022

Tyndale University
Biblical Studies and Theology
Expected April 2022

Relevant Courses:
Data Structures and Algorithms
Operating Systems
Software Design

AWARDS

Valedictorian
Pine Ridge S.S 2017

Valedictorian
Bayview Heights P.S 2013
